

SHIMS

Our precision laser-cut steel shims are designed to reduce sideways movement in earthmoving joints, ensuring smoother operation and longer component life. Ideal for applications such as excavator arms, bucket linkages, and cylinder mounting points, these shims provide a reliable solution to minimize wear and maintain tight, secure joints.

Each shim comes in **thicknesses of 1mm, 2mm and 3mm**. For convenience, we supply them in practical kits, containing **two of each thickness**, giving you the flexibility to achieve the perfect fit every time.

KSET PART #	OD	ID
SM26	50mm	26mm
SM31	55mm	31mm
SM33	63mm	33mm
SM36	70mm	36mm
SM41	71mm	41mm
SM46	80mm	46mm
SM51	96mm	51mm
SM56	95mm	56mm
SM61	100mm	61mm
SM66	115mm	66mm
SM71	120mm	71mm
SM77	127mm	77mm
SM81	130mm	81mm
SM86	138mm	86mm
SM91	146mm	91mm
SM96	150mm	96mm
SM102	155mm	102mm
SM106	160mm	106mm
SM111	165mm	111mm
SM116	178mm	116mm
SM121	185mm	121mm
SM126	192mm	126mm
SM131	210mm	131mm
SM141	220mm	141mm
SM151	240mm	151mm
SM161	250mm	161mm
